

Installation

UK Outline professional audio has made its West End debut at London's Savoy Theatre with 'The Rat Pack Live From Las Vegas'. Theatrelease, a new company formed to supply sound and technical support, has employed Outline's Butterfly line array. Two hangs of eight CDH 483 mid/hi packs have been flown left and right to cover 75% of the auditorium, a further two CDH 483's per side have been employed left and right of the stage to cater for the stalls area, two Uictor live sub basses have been used for low frequencies, 21 Outline I556T have been employed as discreet delays.
