

## Outline Waves Winter Olympic Flag

Italian professional audio product manufacturer Outline appropriately played a part in the recent Winter Olympics in Turin, supporting the spectacular opening and closing ceremonies. Commented company Vice-Chairman Giorgio Biffi: "They say that the Turin 2006 Olympic Games were an opportunity to show off the very best of Italy's excellence on all fronts, from fashion and design through to our leading edge technology. We're rightly proud of having had the privilege of taking part in such an extraordinary event with a large amount of equipment."

Outline also flew 40 Butterfly C.D.H. 483 Hi-Pack mid-low, mid and high frequency reproduction cabinets either

side of a giant screen in Turin's picture square Piazza San Carlo for the public's viewing pleasure, backed up by 18 floor-stacked Victor Live sub-woofers, driven by 36 Outline T6.5 digital power amplifiers and two Genius 26 DSP units.
