

AUDIO MEDIA

THE WORLD'S LEADING PROFESSIONAL AUDIO TECHNOLOGY MAGAZINE

Italian professional audio product manufacturer **Outline** will be presenting three new products - namely, the Mini-COM.P.A.S.S., the first-ever robotized self-powered loudspeaker enclosure, designed for standalone use or as part a vertical line array system; the SubTech 218 P, a compact, lightweight (50Kg) self-powered subwoofer whose frequency response reaches down to 26Hz; and the Genius M 412 DSP Matrix Controller, a four-input/12-output PC-controllable design with crossover, parametric EQ, and high/low shelving filters per output.
